Comments

Critical Errors		
Test Name	Address	Result
Referencing blank cells	'Summary!B26	This formula references a blank cell at B24. This may have been unintended.
	'Summary!C26	This formula references a blank cell at C24. This may have been unintended.
Constant in formula	'Summary!H41	The formula in this cell contains embedded constants: 0.1, Embedded constants are difficult to maintain.
	'Summary!J7	The formula in this cell contains embedded constants: 2869, Embedded constants are difficult to maintain.
Formula cell is unreferenced	'Readme!A1	This formula cell is not referenced by any other formulas.
	'Summary!B4	This formula cell is not referenced by any other formulas.
Inconsistent formula	'Risk Drivers Summary!E271	This formula is inconsistent with surrounding formulas. The range E20:E322 should be checked for consistency.
	'Risk Drivers Summary!G271	This formula is inconsistent with surrounding formulas. The range G20:G322 should be checked for consistency.
Conditional Formatting	'Summary!B23	These cells have conditional formatting.
	'Summary!C23	These cells have conditional formatting.
Lookup validation	'Emissions!C20	VLOOKUP validation failed because the lookup range contains duplicates.
	'Emissions!C225	ToxValues-C1:C1048576 has duplicates at: ToxValues-C83:C84. VLOOKUP validation failed because the lookup range contains duplicates.
"#" Error source	'Resident Cancer drivers!B3	ToxValues-C1:C1048576 has duplicates at: ToxValues-C83:C84. This formula contains an embedded error. This error is not causing other errors.
Data in formula range	'ToxValues!Q295	This data value appears to lie within a formula range. The range Q292:Q295 should be checked for consistency.
Formula fails to cover area		--No Results--
